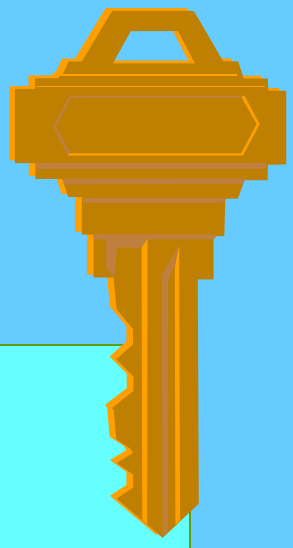
Presented by

Daniel J.B. Mitchell

“I never knew it could be like this.”

“I never knew it could be like this, either.”

Key elements of US system



- Labor market more regulated than other markets in US
- But less regulated than in many other countries
- Payroll taxes and premiums for required social insurance
- Minimum wage and overtime
- Anti-discrimination laws
- Laws regulating union-management relations
- Misc.: mandatory (unpaid) family leaves, advance notice of mass layoffs, safety & health standards

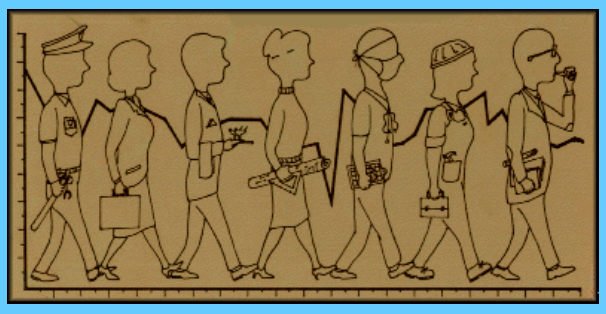
What US employers don't have to do:

- Provide health insurance, pensions, vacations, etc.
- Defend reasons for layoffs, firings, other decisions except if charges are made regarding discrimination, union activity, etc. (At-will doctrine)

Nonetheless...

- Many US employers provide benefits *voluntarily* or through negotiations
- Employers are encouraged by the *tax code* to provide certain kinds of benefits, especially health insurance and pensions
- Nonunion employers may voluntarily provide some kind of grievance mechanism
- Virtually all union contracts provide for grievance and arbitration of "rights" disputes
- At-will doctrine is eroding due to litigation over "wrongful discharge" and other legal strategies

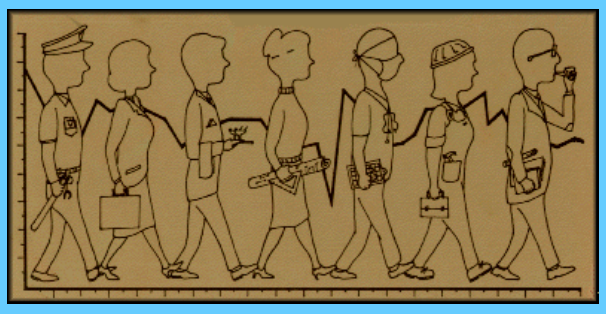
Portrait of Employed Workforce



- 135 million total employment
- 121 million wage and salary employment (84% in private sector)
- 44% have pensions of some type (1998)
- 53% have health insurance of some type (1998)
- 18 million are union represented (10 million in private sector; 8 million in public sector)

Data refer to 2000 except where indicated.

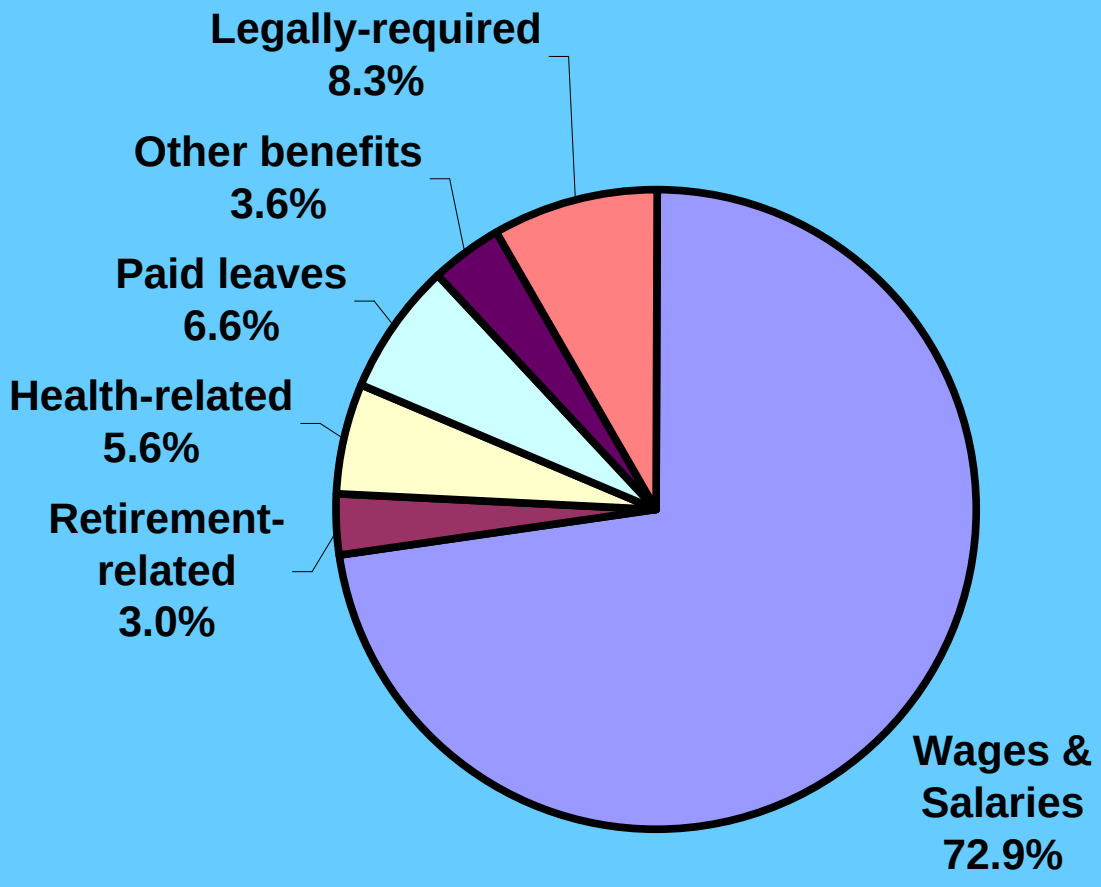
Portrait of Employed Workforce



- 47% Female
- 11% Black
- 10% Hispanic
- 4% Asian & other
- 12% Foreign born
- 15% Part-time
- 3% Work for temp agencies
- 4% Classified as "contingent" (1999)

Data refer to 2000 except where indicated.

Division of hourly compensation pie:

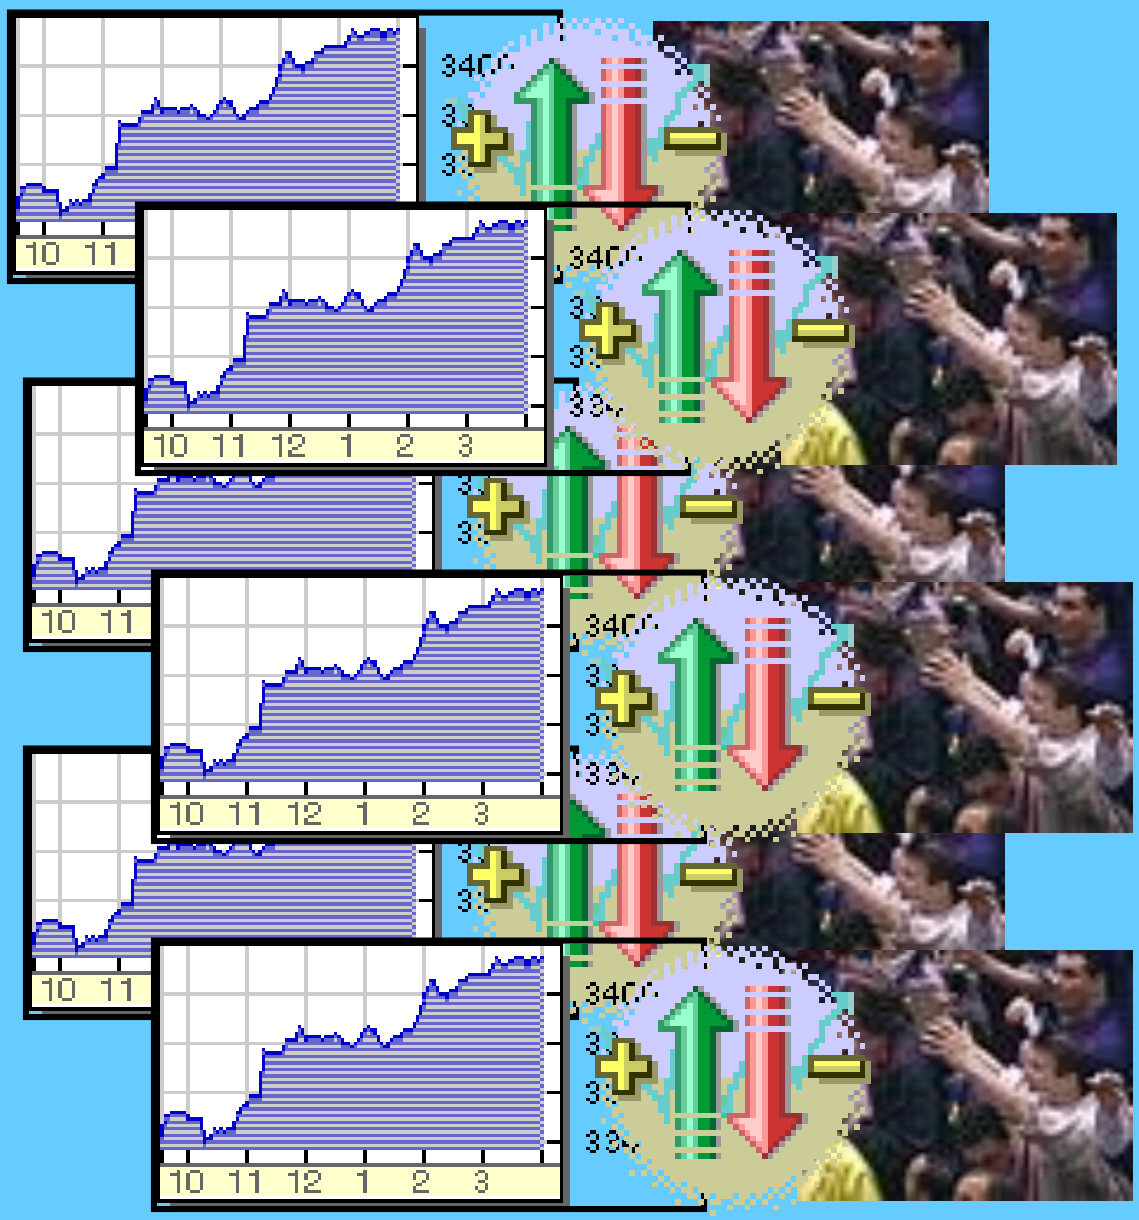


Total = US$20.81 as of March 2001

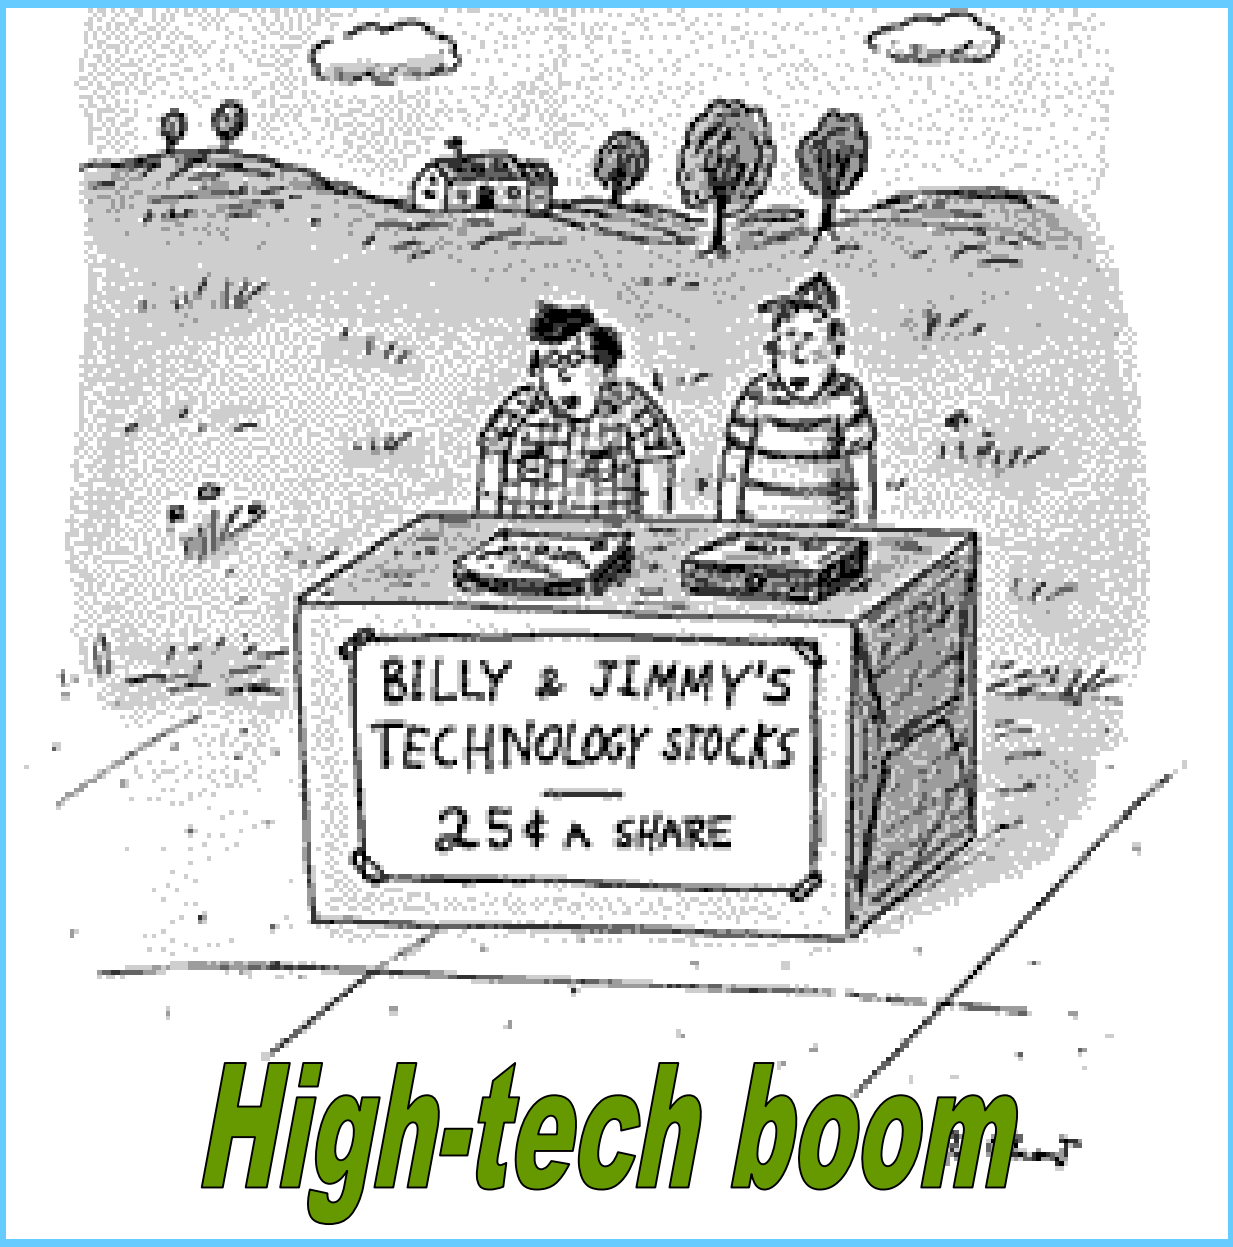
Overview

- Economic Background
- The Changing Employment Relationship
- Compensation
- Employee Relations
- Future

Economic Background

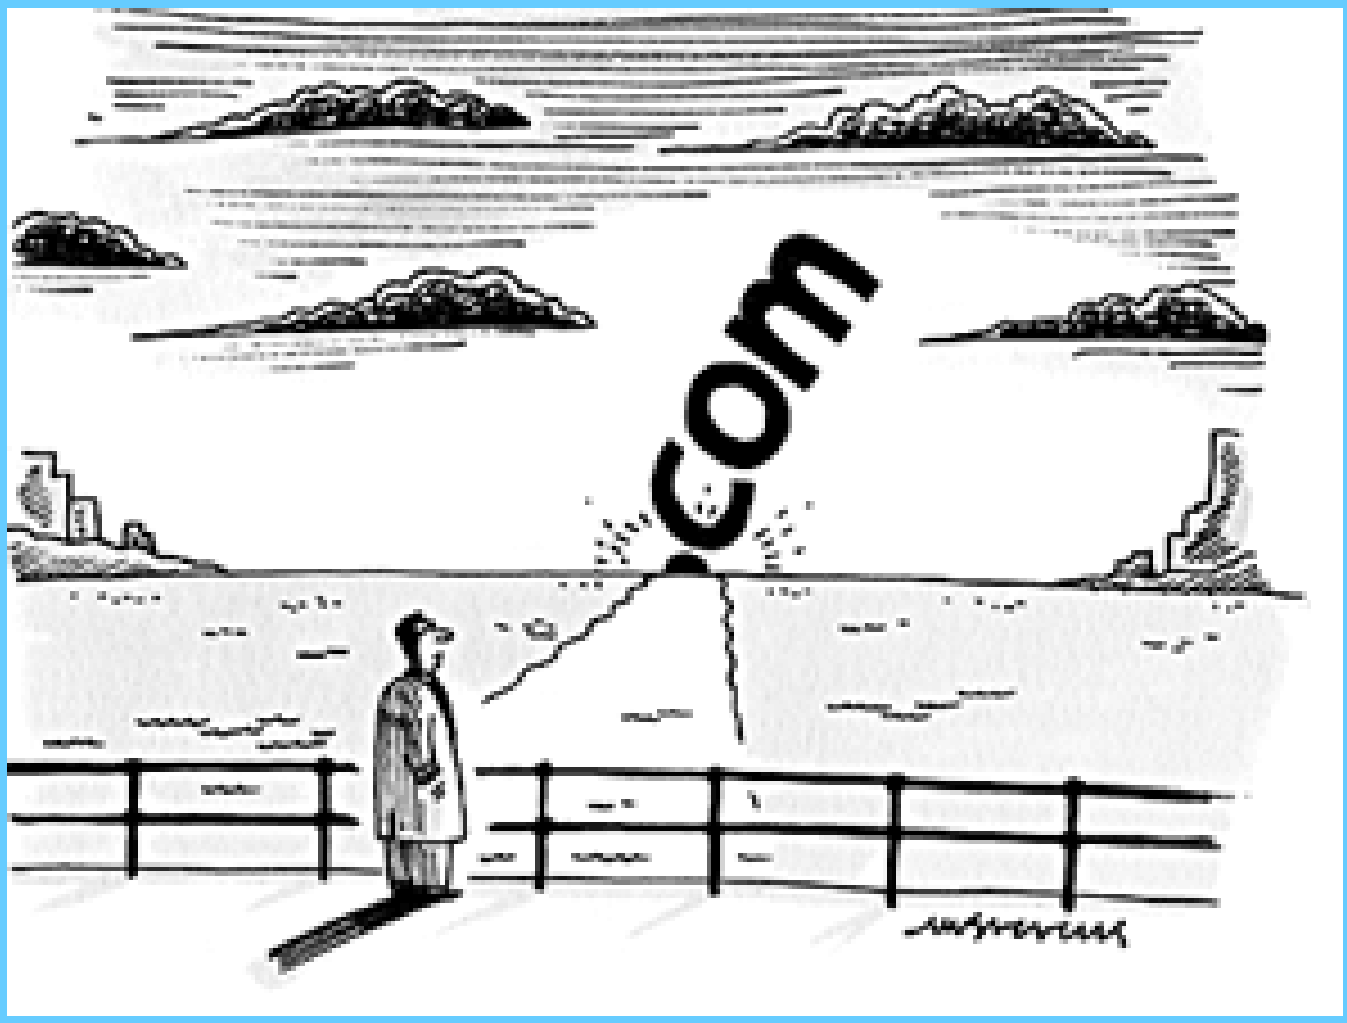


Economic Background:



High-tech boom fueled economy in late 1990s

Economic Background:



Sunset of the dot-coms led to slowdown

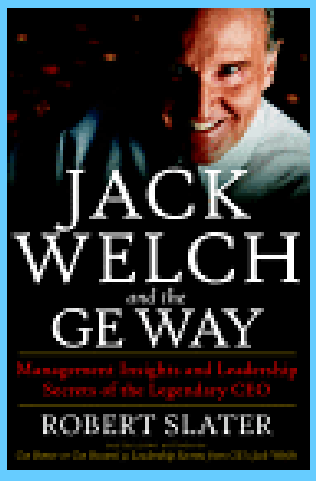
A Close-up Look at America's #1 Manager
SPECIAL REPORT



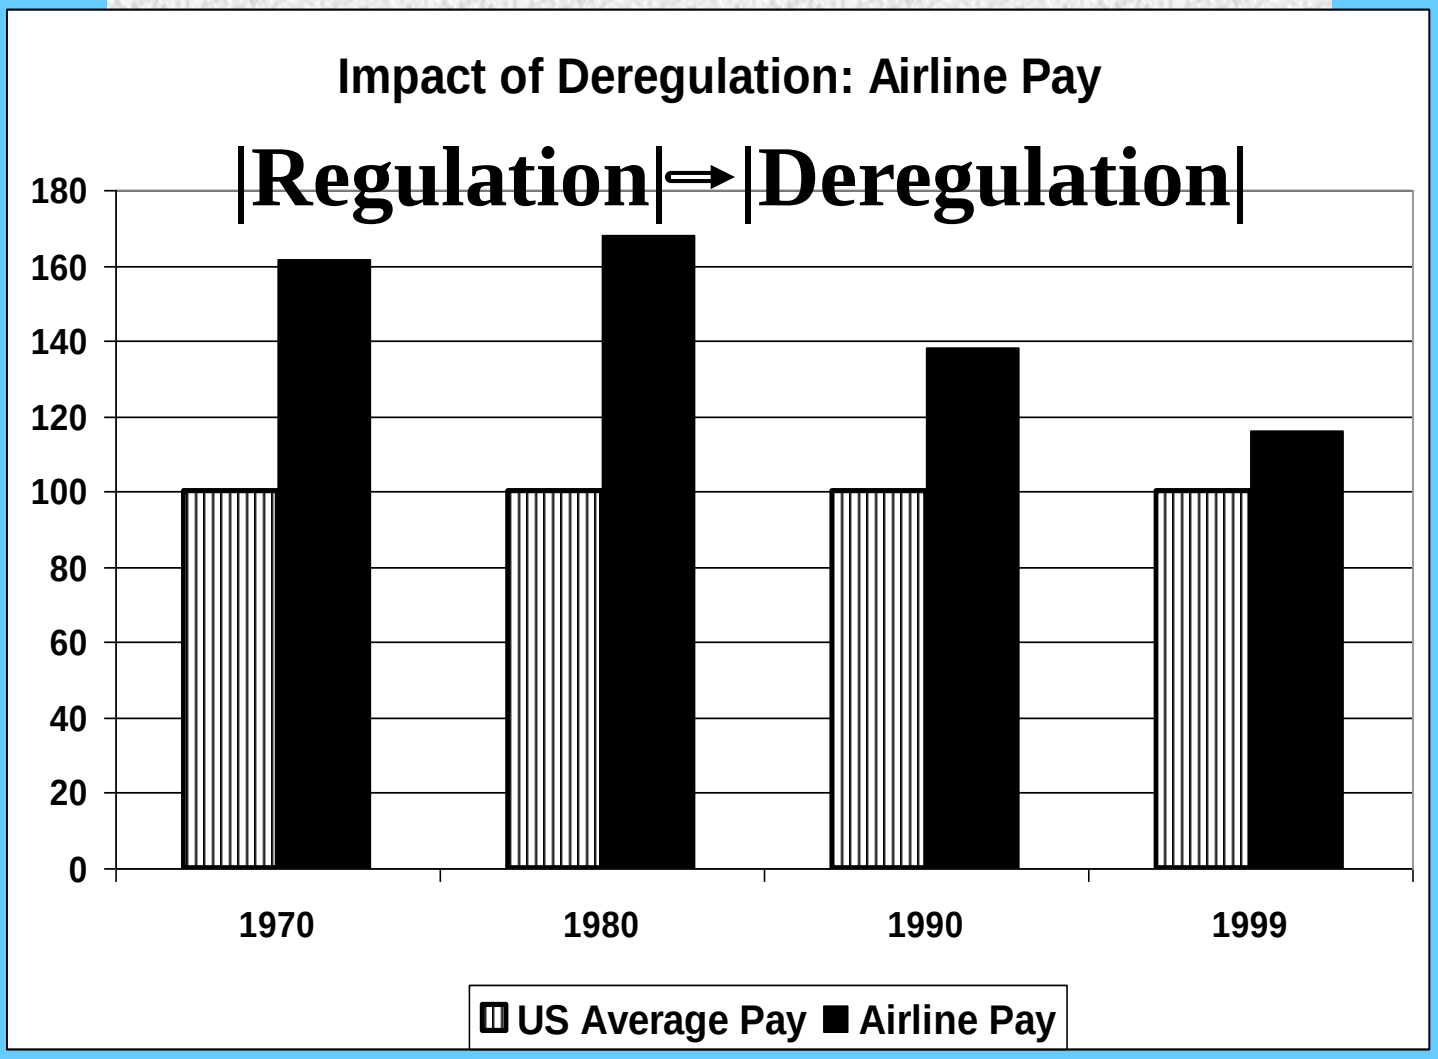
"At the end of the week we cut your paycheck… we start afresh on Monday."

Changing employment relationship:

At least his wife loves him.

Changing employment relationship:

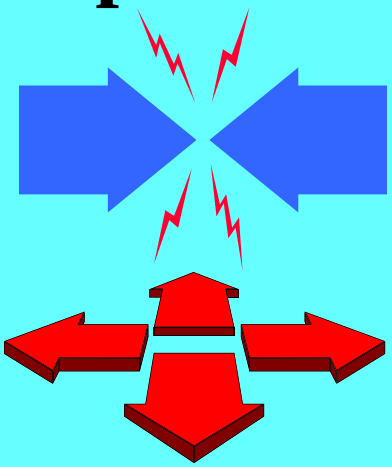
Deregulation and Pay



Changing employment relationship:

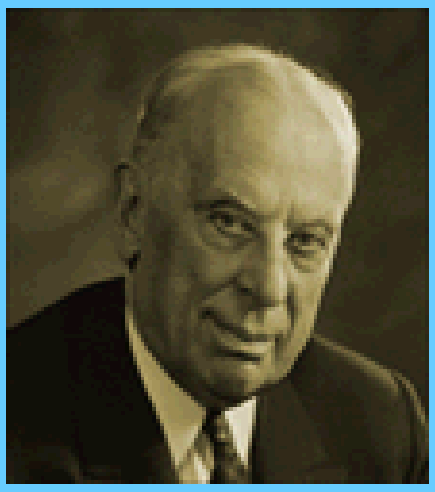
Other factors often cited:

- **Widened market for corporate control**
  - **Mergers**
  - **Acquisitions**
  - **Takeovers**
  - **Spinoffs**



- **Rise of economic uncertainty starting in 1970s:**
  - **Exchange rates**
  - **Oil shocks**
  - **“Globalism”**

Reminder from Alfred P. Sloan, Jr.



"Take my assets, but leave me my organization and in five years I'll have it all back."

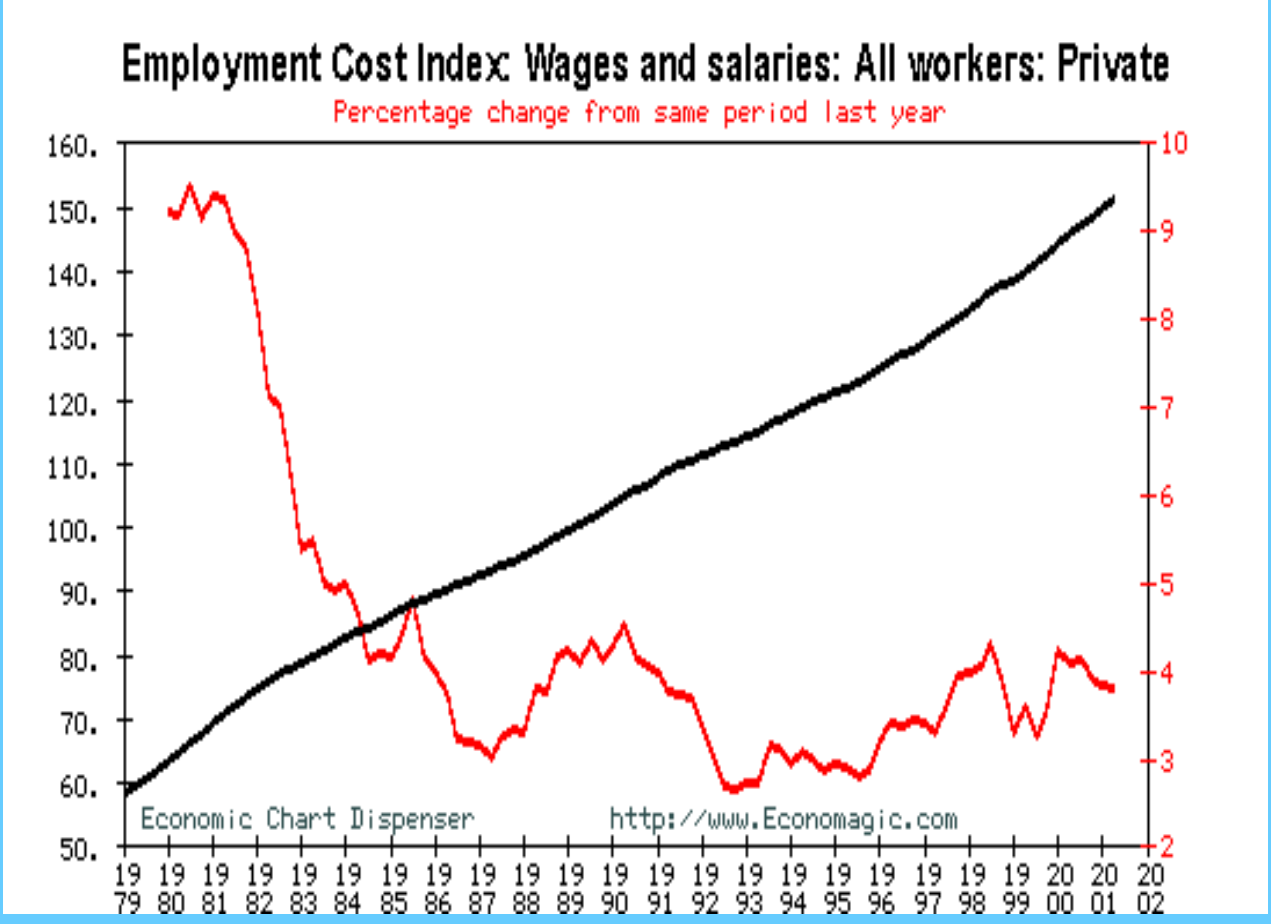
Compensation: Wages



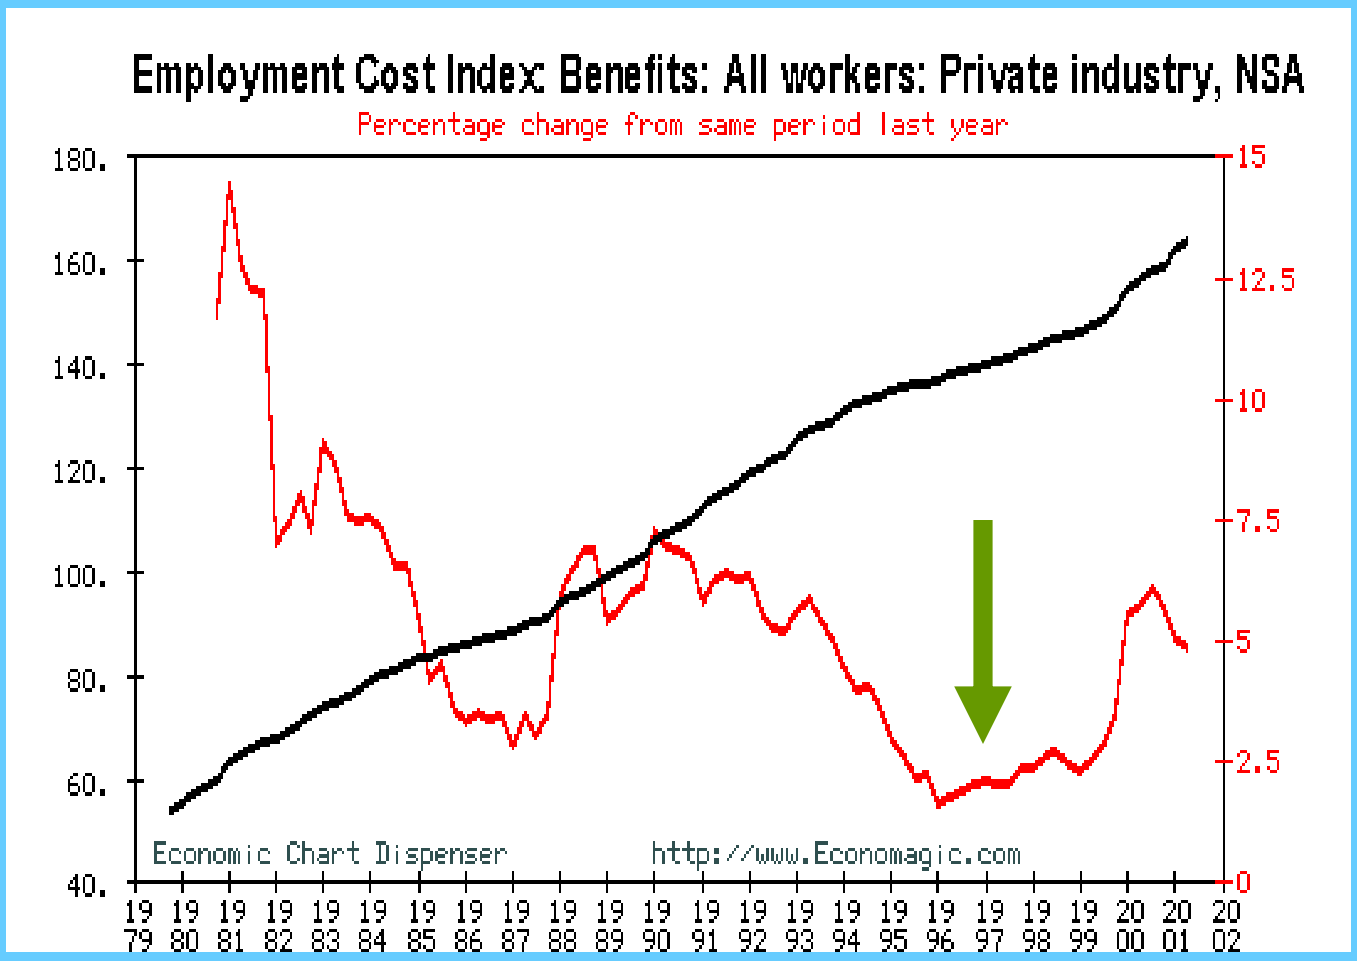
No big wage hikes even during labor shortages of late '90s

Compensation: Wages

Decline of formal wage escalation

- **Union decline**
- **Drop in concern about inflation**

Compensation: Benefits



Managed care held down health costs; stock market held down pension costs

Compensation: Benefits

Private employer decisions...

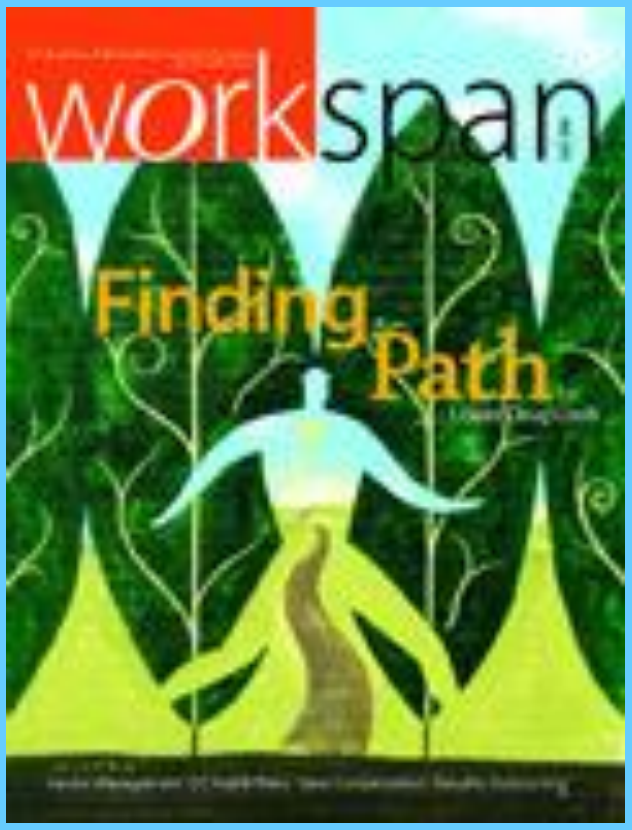
Compensation: health insurance

"Unfortunately, you have what we call 'no insurance.'"

...become a social and political issue.

Contents of August issue

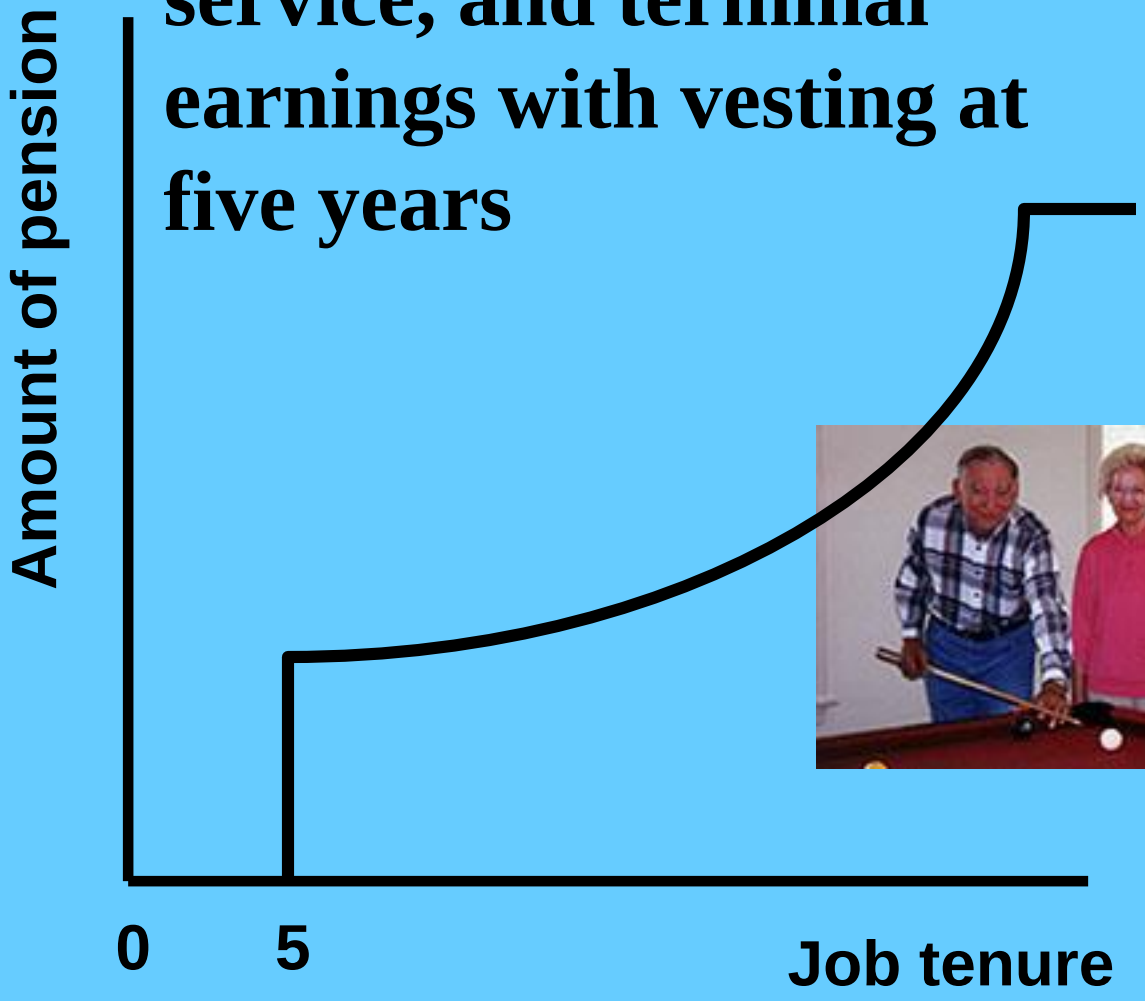
- Finding a path to lower drug costs
- Controlling resurging health care costs
- Defined contribution health benefits



Is this how HR executives should be spending their time?

Stylized Characteristics of DB Plans

Formula based on age, service, and terminal earnings with vesting at five years



Compensation: Pensions

Typical DC Plan and Cash Balance Alternative

- You get what you save
- You can take it with you
  (No favoring of long tenure)
- Value at retirement will depend on your investment decisions

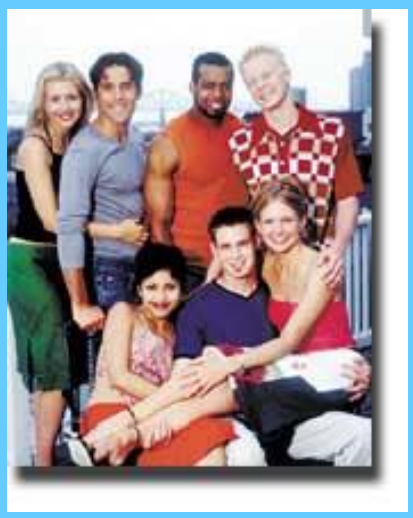
---

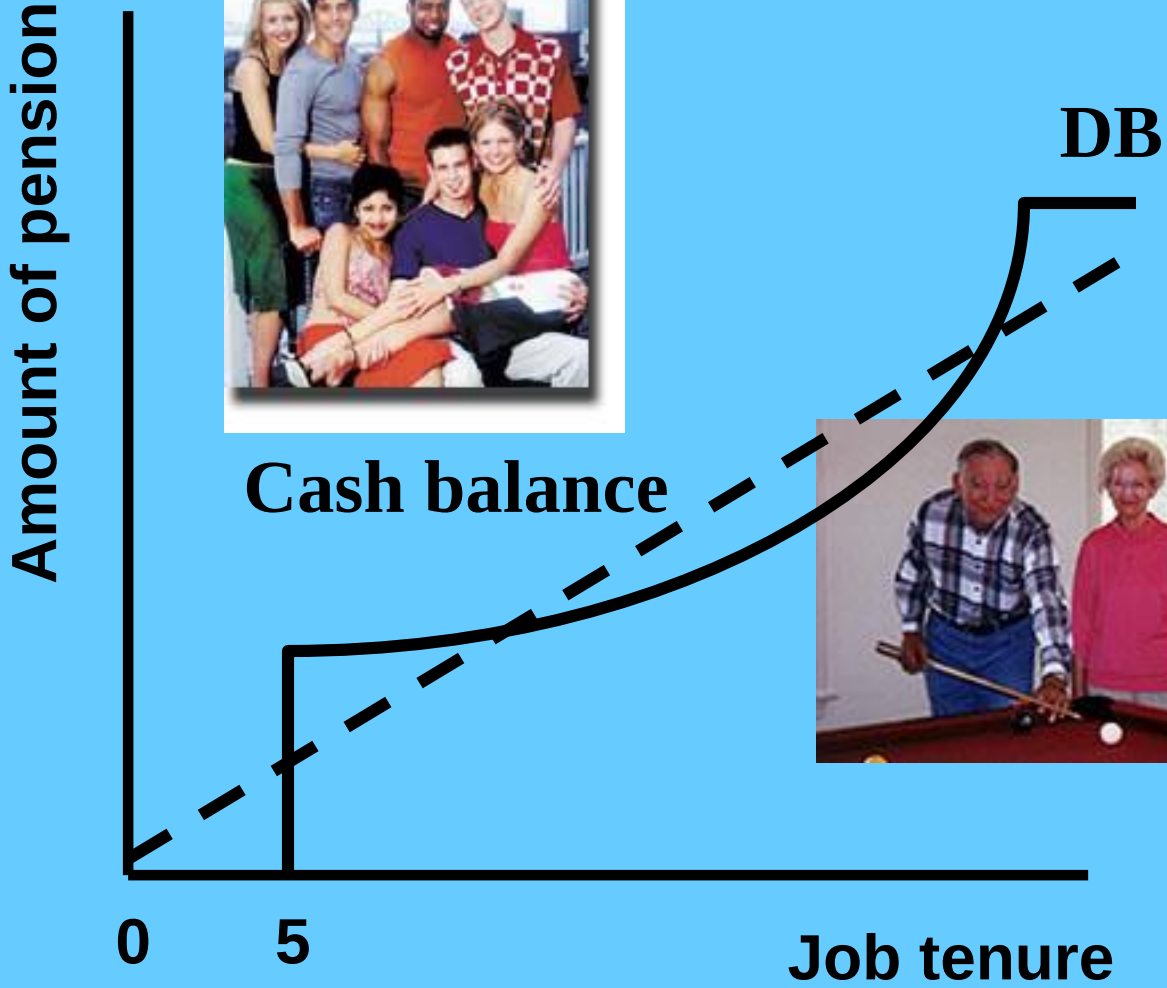
- New cash balance approach seeks compromise between DB and DC
  - More portability
  - Flatter value curve
  - More lawsuits

Compensation: Pensions

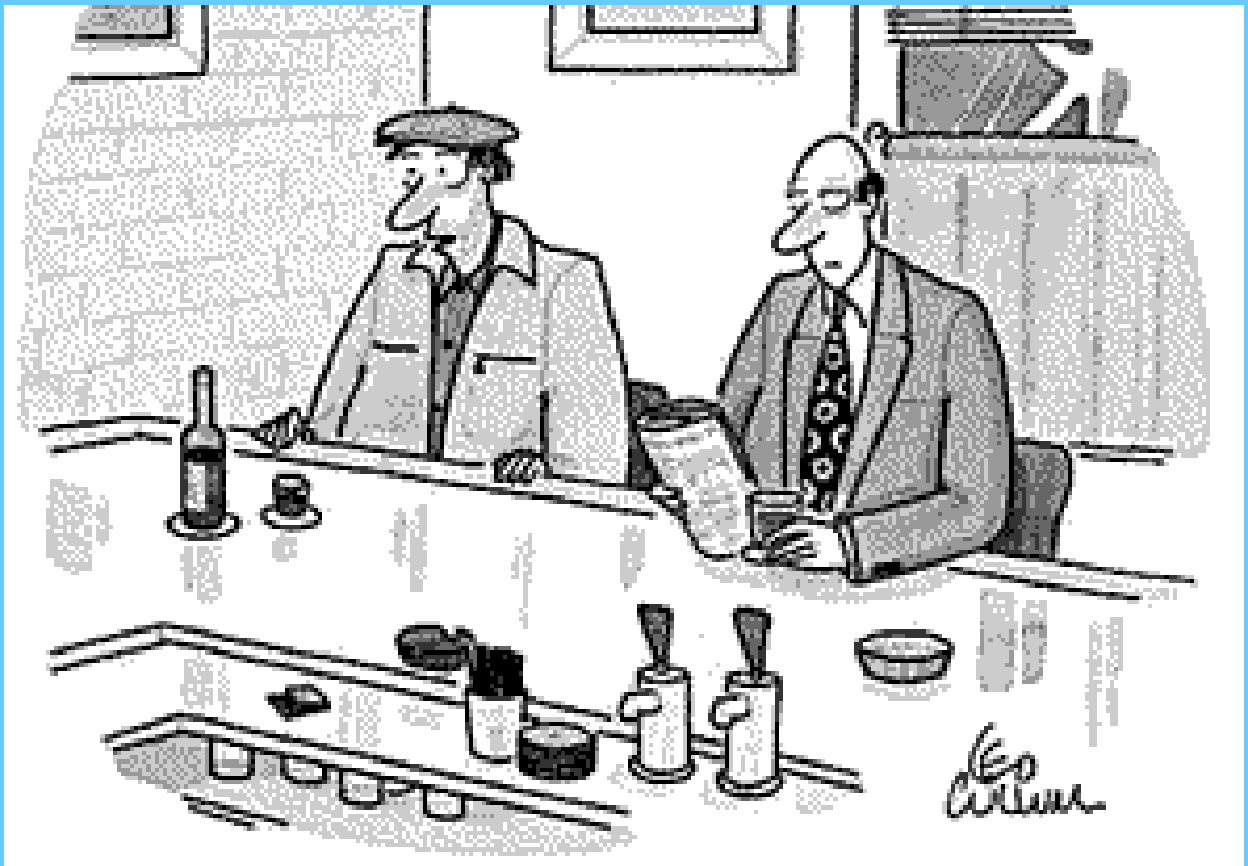
Stylized DB vs. Cash Balance Plans

Twentysomethings vs. near retirees



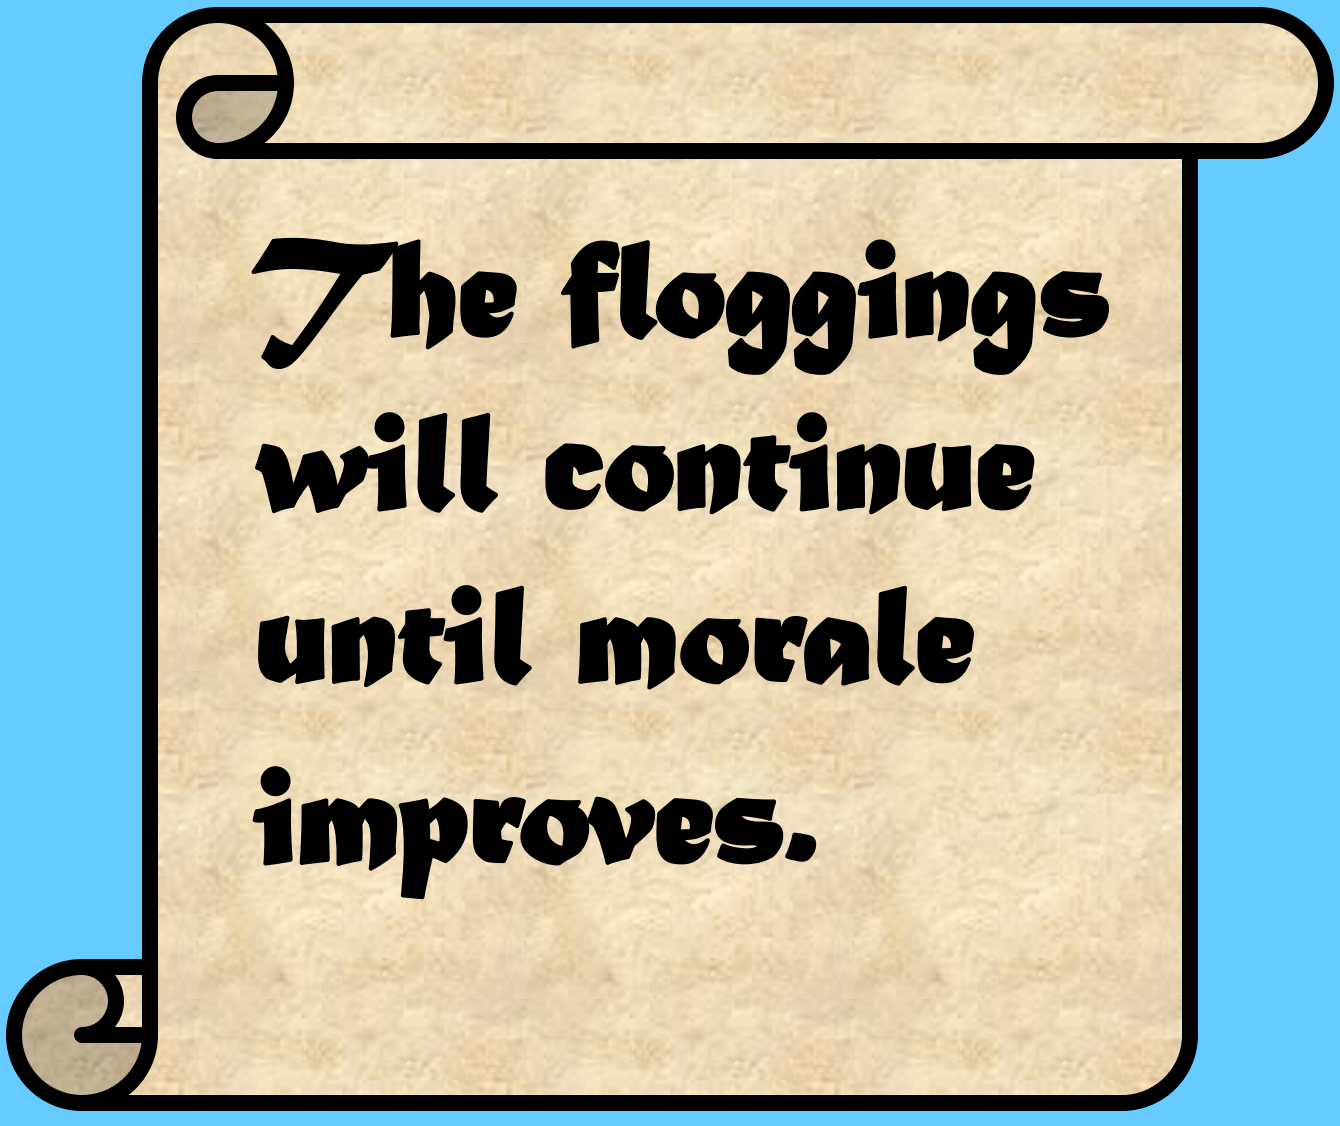


Compensation: Pensions

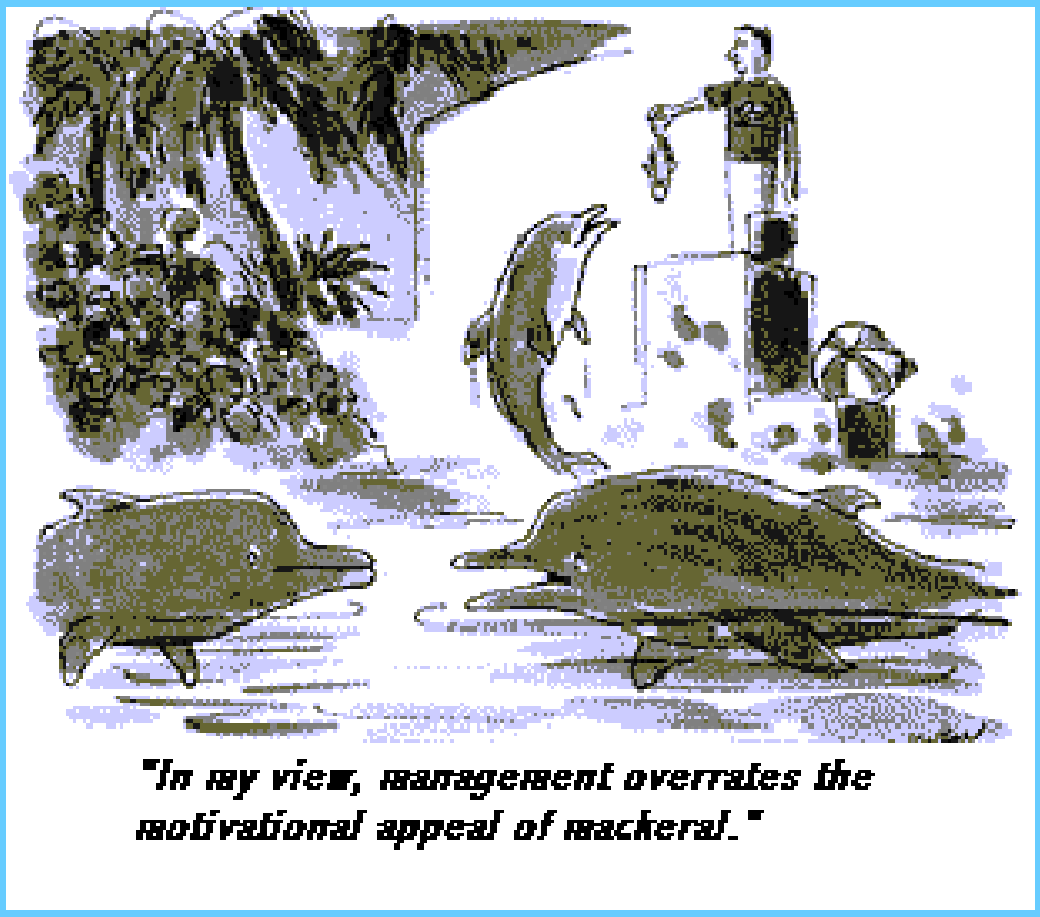


"I rolled my pension over and over and over, and now I have no idea where the hell it is."

Alternative Pay Systems



Alternative Pay Systems



"In my view, management overrates the motivational appeal of mackeral."

Alternative Pay Systems

- **Piece rates**
  - **Mentioned in a fourth of union contracts**
- **Profit sharing**
  - **One third of Chamber of Commerce respondents**
  - **One eighth of full-time employees in govt. survey**
- **Gain sharing**
  - **Small, probably under 5%**
- **ESOPs**
  - **11% of Chamber of Commerce respondents**
  - **Under 4% of full-time employees in govt. survey**
- **Stock options**

Alternative Pay Systems

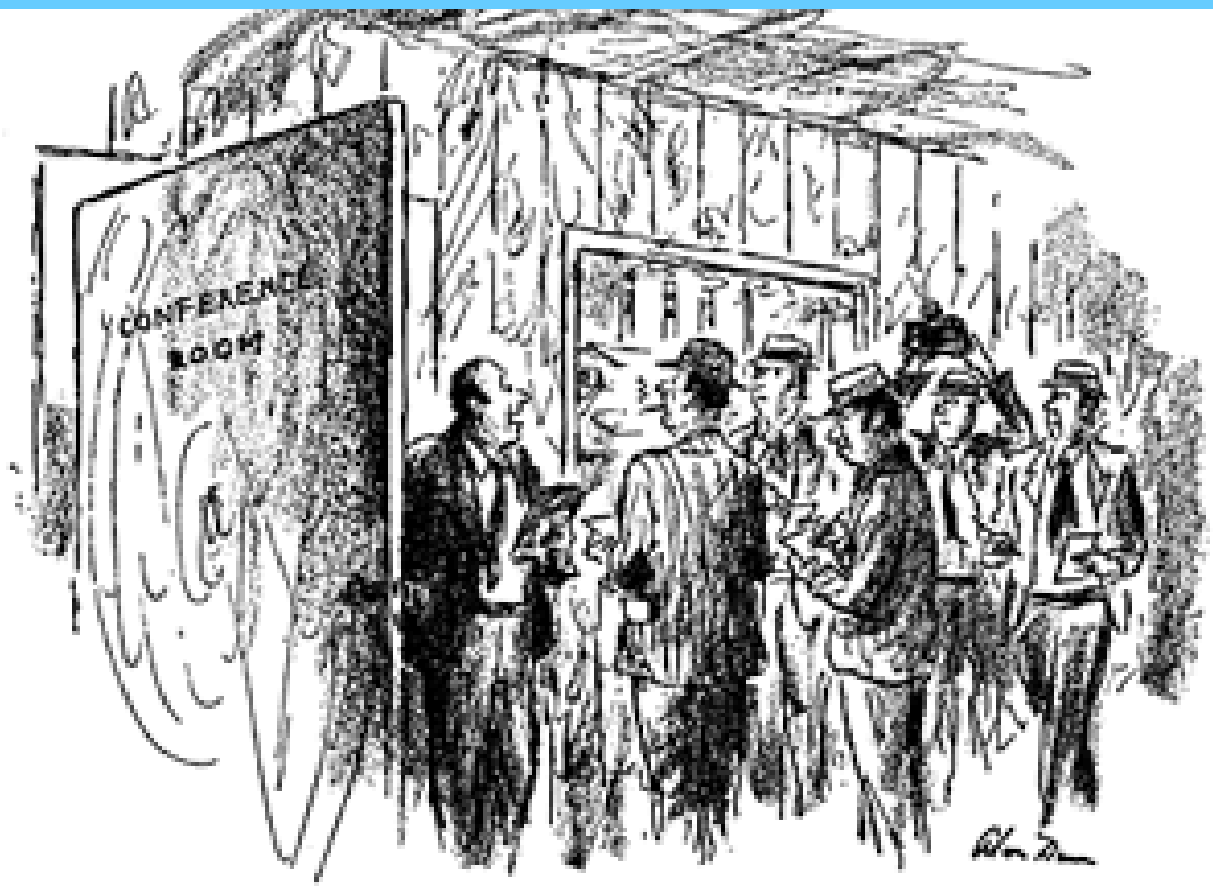
Stock options:

- 1.7% of non-executive employees in 1999
- Up from less than 0.5% in 1993
- 5.3% of employees in establishments with publicly-traded stock
  - One fifth of executives
  - 2% of employees making less than US$35,000
  - 27% of non-executives making > US$75,000

"I don't want stock options. I want you to pay your tab."

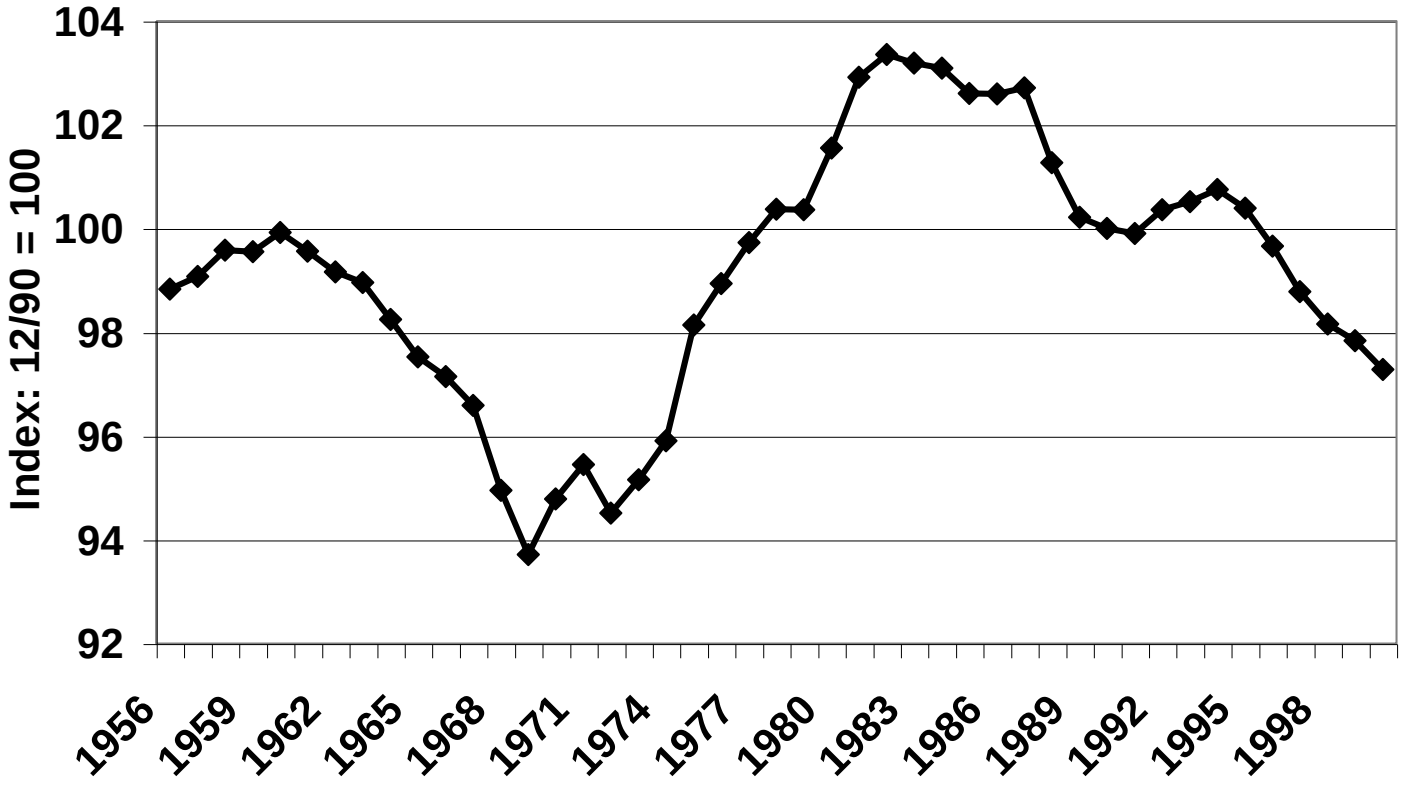
Employee Relations

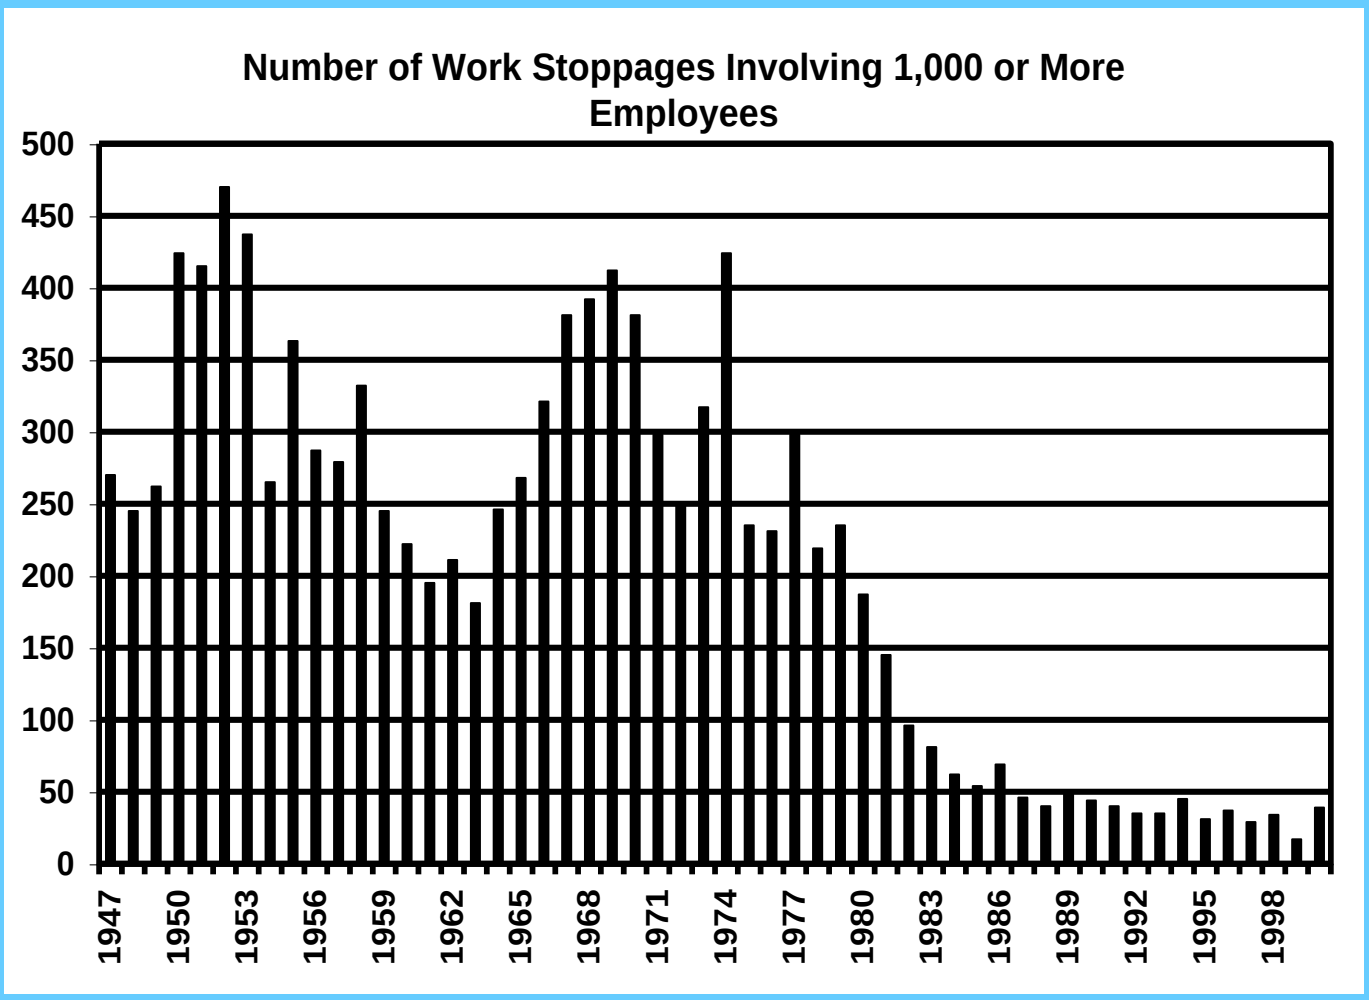
- Union
- Litigation
- Nonunion



"Gentlemen, nothing stands in the way of a final accord except that management wants profit maximization and the union wants more moola."

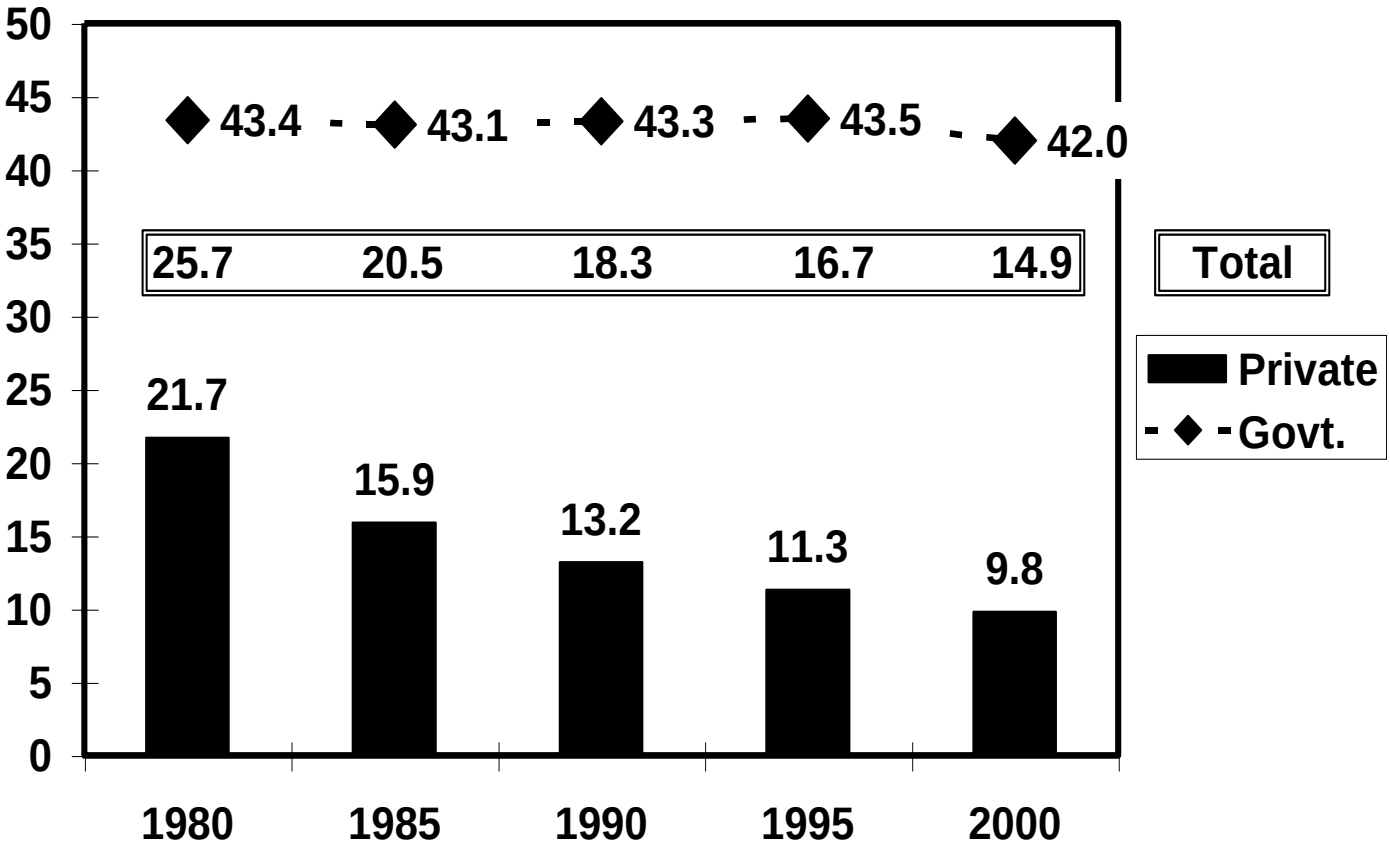
Union Wage/Economy Wage





Strikes are now rare

U.S. Union Representation Rate: Percent of Wage & Salary Workers



Union Strategy in Response to Decline

- **New leadership elected at AFL-CIO (palace coup)**
- **Official position is to put more money into organizing**
- **Emphasis on low-wage immigrants**
- **Ex: "Justice for Janitors" campaign**
  - **Focus on public sympathy**
  - **Enlistment of political, religious, community leaders**

So, warm, shall I tie you up in litigation?
Yes, please, and make it lengthy and expensive!
Shanahan
MISTRESS DOMINATRA, ESQ.

Nonunion Representation

- **Individual**
  - **Open door policies**
  - **More formal systems**
  - **Arbitration**
- **Group**
  - **Quality circles**
  - **Employee involvement**
  - **Conflict with older labor relations law**

Role of HR as depicted recently by a consultant
